

DELMIA - Digital Manufacturing & Production

INTRODUCTION

WHAT IS DELMIA?

DELMIA enables manufacturers in any industry to define, plan, create, monitor, and control all production processes. It accelerates collaborative manufacturing by delivering a digital manufacturing process environment to optimize production.

WHY GET DELMIA CERTIFIED?

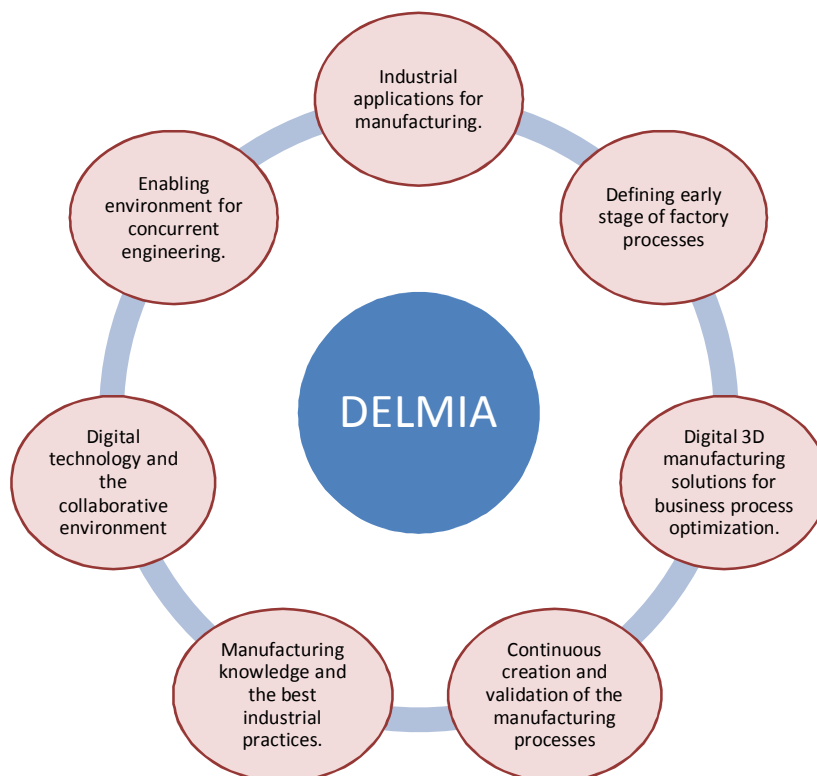

For the Individual

- Gain new career opportunities with a certification required by hiring managers and project consultants worldwide
- Earn recognition as a member of a growing worldwide community of DELMIA professionals
- Validate skills and expertise against industry standards

For the Organization

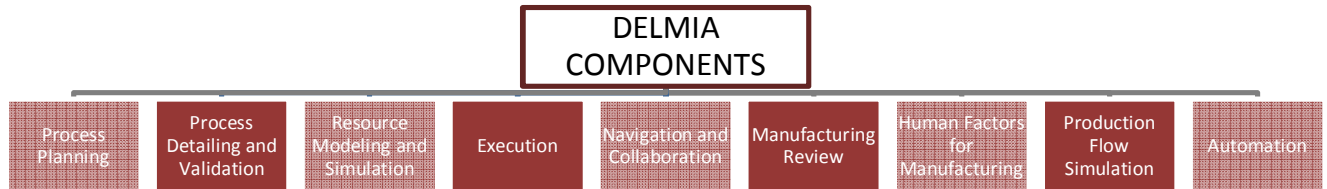

- Measure and validate the expertise of employees, teams, partners and sub-contractors
- Identify and recruit qualified prospective employees
- Increase employees skills and ability to deliver quality projects

WHAT CAN DELMIA DO FOR YOU?

DELMIA - Digital Manufacturing & Production

WHAT'S INSIDE?

INDUSTRY DISCIPLINES

Aerospace

Automotive

Shipbuilding

Process, Power & Petroleum

Automation

Virtual Ergonomics Solutions

Product Lifecycle Management

DELMIA - Digital Manufacturing & Production

COURSE DETAILS

COURSE PARTICIPANTS

The target audience for this course are:

- Systems Engineers
- Controls Engineers
- Mechanical Engineers
- Industrial Engineers
- Simulation Engineers
- Process Engineer
- Process Planners
- New CATIA or DELMIA V5 Users with Simulation, Industrial, Mechanical, Processing or Analysis responsibilities
- New E5 Mechanical Designers
- New DELMIA V5 Users with DFA or Manufacturing Assembly responsibilities

COURSE CONTENT

Materials	Duration	Level	Course Fees (RM)	Certification Fees (RM)
Assembly Solutions				
<ul style="list-style-type: none"> • Assembly Process Planner- Auto • Assembly Process Planner • DPM Assembly • Hub Assembly 	10 days	Fundamentals		
D5 QUEST Solutions				
<ul style="list-style-type: none"> • Advanced Quest • Queuing Event Simulation Tool 	5 days	Fundamentals		
Process Detailing Solutions				
<ul style="list-style-type: none"> • Body-In-White Fastener Planning 	5 days	Fundamentals		
Human Solutions				
<ul style="list-style-type: none"> • Human Option • Human Solutions 	8 days	Fundamentals		
Manufacturing Hub Solutions				
<ul style="list-style-type: none"> • Basic Process Engineer 	2 days	Fundamentals		
Machining Solutions				
<ul style="list-style-type: none"> • NC Machine Tool Builder • DPM Machining Process Planner • NC Machine Tool Simulation 	7.5 days	Fundamentals		
PLM Express Solutions				
<ul style="list-style-type: none"> • PLMX Arc Robotics • PLMX Automation • PLMX Robotics Workcell Builder • PLMX Spot Robotics • PLMX Human 	11 days	Fundamentals		
Robotics Solutions				
<ul style="list-style-type: none"> • V5 Robotics 	4 days	Fundamentals		
Shipbuilding Solutions				
<ul style="list-style-type: none"> • DPM Structures Lofting • Structure Manufacturing Preparation 	9 days	Fundamentals
